

SOP — SMS Templates Mapped to Mike's Presets

Audience: Mike — daily text outreach.

Purpose: One template library covering every FTM preset Mike works. Each preset gets Day 1 / Day 2 / Day 3 cadence + an A/B variant for testing. Copy-paste into DataSift's SMS sender, swap variables, send.

Quick reference — which template for which preset

Mike opens preset	Use templates from section
1. FTM_LP_Mont	§1 Lis Pendens — Montgomery
2. FTM_LP_Franklin	§2 Lis Pendens — Franklin
3. FTM_LP_Greene	§3 Lis Pendens — Greene
4. FTM_SS_Mont	§4 Sheriff Sale — Montgomery
5. FTM_SS_Franklin	§5 Sheriff Sale — Franklin
6. FTM_SS_Greene	§6 Sheriff Sale — Greene
7. FTM_Probate_Mont	§7 Probate — Montgomery
8. FTM_Probate_Franklin	§8 Probate — Franklin
9. FTM_Probate_Greene	§9 Probate — Greene
000. FTM_RW	§10 Redemption Window

Variables you'll substitute

Placeholder	DataSift field	Example
{{first}}	Owner First Name	"Jonathan"
{{address}}	Property Street Address	"2750 Winton Dr"
{{auction}}	Foreclosure Date / Tax Auction Date	"5/15/2026"
{{decedent}}	Decedent Name	"Patricia Cridge"
{{relationship}}	DM Relationship	"executor"
{{me}}	Your name (Aaron / Mike)	"Aaron"
{{phone}}	Your callback number	"(513) 555-0142"

DataSift's SMS bulk-send replaces these from each record's mapped fields. Make sure the column mapping is set before you send a batch.

Universal compliance footer

Every Day-1 SMS must end with opt-out language (TCPA requirement). Save this as a snippet:

Reply STOP to opt out.

For Day 2 and Day 3, opt-out is optional but recommended. After STOP, DataSift auto-flags the record so you don't text again.

Length notes

- Single SMS = 160 chars. Going over splits into multi-part (more \$\$).
 - Templates below are tagged `[160]` (single-segment) or `[multi]`.
 - For Tier 1 phones, longer = fine. For Tier 3-4, keep to single segment to maximize delivery rate.
-

1. Lis Pendens — Montgomery

Context: Foreclosure case JUST filed in Common Pleas. Sheriff sale is 4-12 weeks away. Homeowner has more time + more options than sheriff sale stage. Highest motivation segment because they're in early

panic mode.

Day 1 (Tier 0-1) — Empathy + early option [160]

Hi {{first}}, this is {{me}} - local cash buyer in Dayton. Saw the foreclosure filing on {{address}}

Day 1 — A/B variant: Direct [160]

{{first}}, I'm a local Montgomery County buyer. Your case on {{address}} was just filed - I can buy

Day 2 — Following up [160]

{{first}} - circling back on {{address}}. Even if you're talking to the bank, second opinions are fr

Day 3 — Final / urgency [160]

{{first}}, last note on {{address}}. Sheriff sale's coming. Selling to me before then keeps the fore

2. Lis Pendens — Franklin

Context: Same as Montgomery LP but Columbus market. Higher home values, more competition from other investors. Lead with local presence to differentiate.

Day 1 (Tier 0-1) [160]

Hi {{first}}, {{me}} here - I buy houses in Columbus. Your case on {{address}} was just filed and I

Day 1 — A/B variant: Equity angle [multi]

{{first}} - I'm a local Columbus buyer. I noticed the foreclosure case on {{address}}. Most homeowne

Day 2 [160]

{{first}}, did you see my text yesterday? On {{address}} - Franklin County sheriff sales typically r

Day 3 — Final [160]

Last reach-out, {{first}}. {{address}} - I'm a real local buyer, not a national company. Quick close

3. Lis Pendens — Greene

Context: Smaller market, more personal. Greene LP is currently sentinel-mode (license disabled at source) so when this preset starts populating, it's special.

Day 1 [160]

Hi {{first}}, {{me}} here from Greene County. Saw the case filed on {{address}}. Before things move

Day 1 — A/B variant: Hometown angle [160]

{{first}} - I live and buy in Greene County. Your case on {{address}} just got filed. Local, fast, f

Day 2 [160]

{{first}}, following up on {{address}}. I know dealing with foreclosure stuff is overwhelming. Even

Day 3 [160]

{{first}}, last message on {{address}}. Greene County sheriff sales are scheduled fast once cases m

4. Sheriff Sale — Montgomery

Context: Property has confirmed sheriff sale on {{auction}}. Days until sale = urgency multiplier. Check `auction_date` before sending — if <14 days, use urgency variant.

Day 1 (>21 days to sale) [160]

Hi {{first}}, {{me}} - local Dayton buyer. {{address}} is set for sheriff sale {{auction}}. We can c

Day 1 — Urgency variant (<14 days to sale) [160]

{{first}} - sheriff sale on {{address}} is {{auction}}. That's close. I'm a cash buyer in Dayton who

Day 2 [160]

{{first}}, sheriff sale {{auction}} is approaching for {{address}}. Even if the bank's working with

Day 3 — Final [160]

Last try, {{first}}. {{address}} sells {{auction}}. After that, your options narrow to redemption pe

5. Sheriff Sale — Franklin

Context: Columbus sheriff sales fire weekly via RealAuction. Higher property values = more skeptical owners (think they have leverage). Lead with comparable closes / track record.

Day 1 [160]

Hi {{first}}, {{me}} - I buy houses in Columbus. {{address}} is up for sheriff sale {{auction}}. Cas

Day 1 — A/B variant: Track record [multi]

{{first}} - your sheriff sale on {{address}} is {{auction}}. I've helped 22 Franklin County homeowners

Day 2 [160]

{{first}}, on {{address}} - {{auction}} is coming up fast. Most homeowners think the bank will work

Day 3 [160]

{{first}}, sheriff sale {{auction}} is days away. After that, the bank owns it and YOU are out. Sell

6. Sheriff Sale — Greene

Context: Greene SS volume is low — maybe 1-3 per month. When it fires, treat each lead as high-priority because there's less haystack.

Day 1 [160]

Hi {{first}}, this is {{me}}, a Greene County local. Sheriff sale on {{address}} is {{auction}}. I'd

Day 1 — A/B variant: Personal note [160]

{{first}} - sheriff sale {{auction}} for {{address}} is coming up. I'm right here in Greene County c

Day 2 [160]

{{first}}, following up on {{address}}. Sale {{auction}}. The clock matters - even a few days head s

Day 3 [160]

{{first}}, last note before {{auction}}. Greene County sheriff sales close fast - your options narro

7. Probate — Montgomery

Context: Talking to the **executor**, not the deceased. Their family member just died. Lead with empathy. Do NOT push hard on Day 1.

Day 1 (Tier 0-1) — Empathy first [multi]

Hi {{first}}, this is {{me}} - I buy houses in Dayton. I saw you were named {{relationship}} on {{de

Day 1 — A/B variant: Brief + soft [160]

{{first}}, condolences on {{decedent}}. I'm a local Dayton buyer. If selling {{address}} would help

Day 2 [160]

{{first}}, hope you're doing OK. On {{address}} - I close in 14 days, all-cash, no repairs needed. T

Day 3 [160]

Last note, {{first}}. {{address}} - probate properties cost the estate every month they sit. I take

8. Probate — Franklin

Context: Columbus probate volume is highest of the 3 counties. Many records will have heir maps with multiple decision-makers. Mike should still text the named executor first.

Day 1 — Empathy first [multi]

Hi {{first}} - {{me}} here, local Columbus buyer. I saw you're {{relationship}} on {{decedent}}'s es

Day 1 — A/B variant: Multi-heir aware [multi]

{{first}}, condolences on {{decedent}}. As {{relationship}}, I know you're juggling a lot. On {{addr

Day 2 [160]

{{first}}, on {{address}} - I know probate moves slow. I can move fast. All-cash, 14-day close, your

Day 3 [160]

{{first}}, last message about {{address}}. Probate property carrying costs (taxes, insurance, lawn)

9. Probate — Greene

Context: Greene probate is currently sentinel-mode (license disabled at source). When this fires, it's gold — competitors have no idea. Be tasteful.

Day 1 — Empathy + small-town tone [multi]

Hi {{first}}, this is {{me}}. I'm sorry to reach out at a hard time - I saw you're {{relationship}}

Day 1 — A/B variant [160]

{{first}}, my condolences on {{decedent}}. Local Greene County buyer here - if {{address}} needs to

Day 2 [160]

{{first}}, hope you're holding up. On {{address}} - if the family wants to move it fast and split cl

Day 3 [160]

{{first}}, last note on {{address}}. Greene properties don't get the attention Columbus or Dayton or

10. Redemption Window (post-sheriff-sale)

Context: Sheriff sale already happened. In Ohio, homeowner has redemption period (typically days-to-weeks) to buy property back. Different play: we negotiate WITH the redeeming homeowner OR offer to fund the redemption + buy from them.

Day 1 — Inform + offer help [multi]

Hi {{first}}, {{me}} here. I know {{address}} sold at sheriff sale recently. You may still have rede

Day 1 — A/B variant: Direct [160]

{{first}} - sheriff sale on {{address}} happened, but you may have redemption rights left. I have cc

Day 2 [160]

{{first}}, on {{address}} - the redemption window in Ohio is shorter than people think. If you want

Day 3 [160]

{{first}}, last message about {{address}}. Once redemption expires the property's gone for good. Act

How Mike sends these in DataSift

1. **Records → Apply preset** (e.g., 7. FTM_Probate_Mont)
2. **Filter to Tier 0-1 phones only** (skip Tier 4-5 for SMS Day 1)
3. **Select all matching**
4. **Send To → Bulk SMS** (or DataSift's integrated SMS tool)
5. **Paste the Day 1 template** for that preset
6. **Verify variable mapping** (DataSift fills {{first}} etc. from each record)
7. **Send**
8. **Tag records** sms_sent_day1 so they auto-pick into "02. Needs Called Day 1" preset tomorrow

For Day 2 / Day 3 — same flow but use the Day 2 / Day 3 preset filter (records tagged sms_sent_day1 → "Day 2" cadence).

A/B testing framework

Each preset has a primary Day 1 + A/B variant. Mike should:

- **Week 1:** send primary template to 50% of new records, A/B variant to other 50%. DataSift's bulk SMS supports randomized template assignment.
- **Week 2:** track response rate per variant.
- **Week 3:** standardize on the better-performing variant. Iterate the loser.

Track in DataSift: tag responders responded_v1 or responded_v2 . Friday Weekly Review pulls the conversion delta.

Compliance reminders

- **TCPA:** every Day 1 SMS includes "Reply STOP to opt out". Day 2-3 optional but encouraged.
- **Time-of-day:** OH state law restricts SMS to 8 AM - 9 PM local. DataSift's SMS scheduler should respect this.
- **Frequency:** max 1 SMS/day per record. Don't double-text.
- **STOP handling:** DataSift auto-tags records that reply STOP. Never re-text those.

- **Litigator risk (Tier 5):** records with phone tier ≤ 20 are flagged litigator-risk. **Do not text Tier 5.** Mail or drop only.
-

Customization tips

- **Personalize the city in templates** (Dayton / Columbus / Xenia) — generic "your city" reads as spam
 - **Drop the brand on Day 1** if you want — sometimes anonymous "{{me}} here" converts better than "{{me}}" from Wright Home Offer"
 - **Vary phone display** — {{phone}} formatted as (513) 555-0142 reads more local than 5135550142
 - **Don't send the same template to records that previously responded "not interested"** — they remember
-

Future templates (Phase 11+)

When these niches come online:

- **Tax Sale (FTM_TaxSale_*)** — when Mike adds those presets
- **Code Violation** — when we add the scrapers
- **Eviction (landlord targeting)** — different angle: target the LANDLORD (plaintiff), not tenant
- **Divorce** — sensitive; usually only post-decree property division

I'll add templates here when those scrapers + presets land.
